

MANNHAI

HELLROAD CARAVAN

Mannhai enthusiastically returns this year with a new sound, a new lineup, and a new album. Hellroad Caravan – to be released in Finland February 15, 2006 – marks Mannhai's fourth full-length album and the band's first release with vocalist Pasi Koskinen, the former Amorphis frontman. Pasi joined the group in the middle of Mannhai's European tour in April, 2005, as the band had to let go of their Norwegian vocalist at the time. Upon completion of the tour, however, they noticed that things were working better than ever; therefore it wasn't a tough decision to keep the new lineup.

After months of hard work on the new material, Mannhai signed a record deal with Finland's Bull's Eye Records, and locked themselves into Jive Studio to achieve a new and heavier Mannhai sound. Two months later the band emerged from the studio with their most significant album ever. Produced by Jukka Varmo and Mannhai, Hellroad Caravan is full of heavy songs with a wild groove, and punctuated by thunderous and explosive rock 'n' roll outbursts. But what makes the band so unique is their ability to play together as a team, forming a kind of cohesiveness that other bands often struggle to find. You can have a taste of what is to come with their new single "Spaceball," to be released January 18, 2006.

Mannhai anxiously awaits their upcoming tour, which will begin in Finland after the release of Hellroad Caravan. Following the Finnish tour dates, the band heads out to the rest of Europe in late spring. The show promises to be powerful and sweaty with pure rock energy, so fasten your seatbelts and hold on tight as the Mannhai caravan comes rolling in your direction!
